

INDEPENDENT ACCOUNTANTS' REPORT ON MANAGEMENT'S ASSERTION TO THE BERRIEN COUNTY EMPLOYEES' RETIREMENT SYSTEM

June 25, 2021

Board of Commissioners
County of Berrien, Michigan
St. Joseph, Michigan

We have examined management's assertion that the significant elements of census data maintained by the **Berrien County Employees' Retirement System** (the "System"), a fiduciary component unit of the County of Berrien, Michigan, during the year ended December 31, 2020, were complete and accurate based on the criteria included in the Berrien County Employees' Retirement System Plan Document. The specific assertion made by the System was as follows:

The census data provided by the System to the actuary of the pension System as of December 31, 2020, is complete and accurate based on the accumulation of census data reported by participating employers for the period from January 1, 2020 to December 31, 2020. Census data includes the following: date of birth; date of hire; years of service; marital status; pensionable wages; class of employee; gender; date of termination or retirement; spouse's date of birth (if applicable); employment status; and annual benefit payments for retirees, as set forth in the System document.

The census data provided by the System to the actuary of the pension plan as of December 31, 2020, properly reflects current benefit provisions in effect as of December 31, 2020, included in the System document.

The census data provided by the System to the actuary of the pension plan as of December 31, 2020, properly excludes deceased members based on the System's validation of the existence of inactive and retired members by comparing Social Security numbers of the members with the Social Security Death Check Service maintained by LifeStatus360.

The allocation of System assets and liabilities between System divisions is accurate. This allocation is based on the present value of future benefits for each employer.

The System's management is responsible for the assertion. Our responsibility is to express an opinion on management's assertion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management's assertion. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

In our opinion, management's assertion that significant elements of census data maintained by the Berrien County Employees' Retirement System during the year ended December 31, 2020 were complete and accurate based on the criteria included in the Berrien County Employees' Retirement System Plan Document is fairly stated, in all material respects.

This report is intended solely for the information and use of the County of Berrien, Michigan, its component units, the **Berrien County Employees' Retirement System**, and the respective auditors of these parties, and is not intended to be and should not be used by anyone other than these specified parties.
