START DATE: Wednesday, 4/14/2021

ESTIMATED END DATE: Contractor and weather dependent*

PROJECT UPDATE #4: Please see updated table regarding status of grind and gravel and anticipated order and timeline for projects. As additional projects are added, the website will be revised to reflect those changes. Road improvement construction will result in temporary road closures with a possible moving work zone. Motorists should anticipate possible temporary delays as work progresses.

SAFETY BENEFITS: Grind and gravel projects will provide needed structure to road base which will be prime and double sealed later in the construction season. Improvement projects will correct some structural issues, provide greater stability and a smoother road surface.

TRAFFIC RESTRICTIONS: Temporary road closures or traffic delays will occur when contractor and equipment is present. Traffic will be permitted through by the contractor when safe to do so. Please reduce speeds and be alert when traveling through work zones. Individuals might wish to seek alternative routes or be prepared for possible delays until work is completed.
