Dear Mr. Litaker,

This is a letter to support the efforts of the Benton Charter Township in applying for the Broadband grant to increase broadband access to everyone in the community.

Benton Harbor Area Schools supports this effort to bring equity and equality to persons who live in our community regardless of income level. Access to broadband is essential to not only families but students as well. Our education system increasingly relies on this essential service to allow students access to online learning.

Feel free to contact me with any questions. I can be reached via the contact information below.

Servantly,
