Brian,

The drain commission will provide a \$1,000 to \$1,250 in-kind contribution per drain crossing towards the Robin and broad band deployment future grants.

The standard cross fee is \$1,250 per crossing. The fee for the broad deployment will be \$250 per drain regardless of the number of crossings. The installation contractor will provide quality assurance documentation showing compliance to Drain Commission standards. If an issue exists that necessitates on-site inspection or engineering, this will be charged in addition to the fees at a time and material basis.

If you have any questions, please contact me
