Mr. Ferderick,

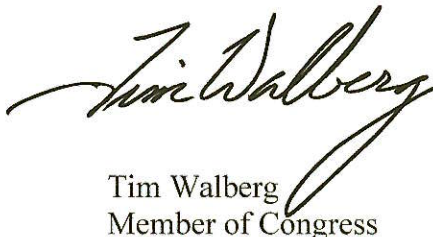

I am writing in support of the application by Midwest Energy and Communications (MEC) for the ROBIN broadband grant. MEC is proposing to use the funds across multiple counties in the 5th Congressional District which I represent.

If awarded the ROBIN broadband grant funding will facilitate the deployment of needed reliable, high-quality and affordable broadband to so many who have been disadvantaged because their area does not have access. MEC is proposing to deliver state-of-the-art, fiber-to-the-home broadband. In this day in age, we all know the value of high-speed internet for residents, school children, farms, and small businesses.

Midwest Energy and Communications' grant request will enable them to expand broadband service to unserved and underserved residents, businesses, and institutions.

Thank you for your consideration.

Sincerely,

Tim Walberg
